

Rocklin Manufacturing Announces Renovations

Industrial electronic equipment manufacturing company, Rocklin Manufacturing Co., plans to invest \$1.2 million in renovations of their 1880s two-story building and demolish its two other buildings. The plans will double the amount of usable space to 8,000 sq. ft. and include larger assembly and production areas, office space, storage and room for further growth. The state approved financial assistance through the Targeted Jobs Program in addition to tax credits from the state and the city.
